ABOUT ME

I am Shubham Munde – a curious and growth-focused developer with a strong interest in full-stack development, modern UI/UX, and emerging technologies. I am currently learning backend technologies like Node.js, Express.js, and MongoDB to build efficient and scalable systems. I enjoy exploring new concepts, creating practical solutions, and improving my communication and technical skills every day. Driven, disciplined, and always ready to grow, I aim to build meaningful and impactful digital experiences.

EDUCATION

Suryodaya college of engineering and technology

Bachelor's in Computer Engineering

CGPA : 8.75 (sem 1) , 8.86(sem 2)

TECHNICAL SKILLS

Frontend : HTML, CSS, JAVASCRIPT, REACT, TAILWIND CSS.

Backend : Node.js, Express.js, MongoDB, JWT Auth (Basics), Postman.

AI Technologies & Automation : AI Agents, Chatbot Development, Gemini API.

programming : C, CPP.

IoT & Embedded Systems : Arduino, ESP32 / ESP8266, IoT Sensors & Modules.

Tools : Git/Github, VS code, MS-office, Arduinio IDE, canva.

SOFT SKILLS

- Problem-Solving
- Critical Thinking
- Decision-Making
- Time Management
- Leadership & Team Collaboration
- Creativity & Innovation

PROJECTS

Web Development : **CollegeConnect** (A platform for students to share, access, and collaborate on academic resources.).

ECO-VIDYA (An academic learning platform built around digital classes & student management.),

MessinfoHub (a mess finder website)

IOT : Smart plant monitoring system, smart street light, automated pumping system, Smart Rular Development.

CERTIFICATION

Weartech - IOT program to learn about microcontrollers, sensors and microprocessors.

Webspark - WEB-development program that taught MERN stack development (Basic)
